Just when all the boys and girls went
off to school, 'long comes a circus.

Monday surely will be one big day in
town, county court day and circus day.

Hands were never scarcer than at
present and farmers are offering fancy
prices for help.

See prices on Ladies and childrens
shoes at Moore's.

If you want bargains come to the
closing out sale at Moore's.

Summer lingering in the lap of
autumn. Let her linger the farmers
are needing a few weeks extension of
warm weather.

Pay us that dollar before you go to
the circus, we need the money worse
than the circus people, and paid to us
it stays at home.

Local hunters have been having good
success dove shooting, but the pot
hunters who kill all they can instead of
all they need, will soon deplete the
flocks.

Big sale every day next week at
Moore's.

An early frost would have played
havoc with a great deal of the late set
tobacco, but Providence has been un-
usually kind, and it seems that it is all
to come in safely.

In anticipation of an ordinance re-
quiring the placing of pavements in
certain localities, the property owners
have taken time by the forelock and
are putting them down.

Going to be a big crowd here Monday
attracted by the circus and county
court day. Come down to the Record
office and see us, bring us a dollar or
let your name go on our subscription
books. We are trying our best to give
you a good paper and it takes your
financial support to do this.

BARGAINS.

Don't fail to read the advertisement
of the sale of R. S. Brown's suburban
property, elsewhere in this issue. Sale
Saturday Oct. 10th.

VERY IMPORTANT BUSINESS

Mr. R. L. Elkin went over to Lex-
ington Tuesday on some very im-
portant business connected with the
advertising department of the Record.
Ringling Bros big circus exhibited in
Lexington.

SOW WHEAT.

Government statisticians are predict-
ing \$2.00 wheat for next year and ad-
vising farmers to sow every acre avail-
able this fall. Experts say that the
war will last at least until spring and
that this will insure a good price on
America's bumper crop. Take this
advice farmer. Sow wheat.

RETURNS HIS CHECK.

Some one, doubts the one who took
the money, returned the check which
was taken from that gentlemen's
trousers pockets at the same time Mr.
Dave Sanders was relieved of \$71. last
week. The check was dropped into his
coat pocket at some time unknown to
Mr. Sanders. Dave says he wishes all
of it had been in checks.

NEW GARAGE.

On Monday Sept. 28th the new. Ga-
rage of the Lancaster Motor Car Co.,
will open. This garage is located in
the new building erected by Mr. Luther
Herron on Stanford St. The garage is
modern in every particular, and an ex-
pert automobile man in the person of
Mr. A. V. Douglas of Winchester will
be in charge.

MEDICINE SHOW ALL WEEK.

Dr. Mann, representing the Andes
Medicine Co. of Cincinnati is in Lan-
caster this week advertising the
remedies put out by that company. Dr.
Mann has with him a trio of negro
musicians and comedians and gives
free performances on the public square
every night, which are attracting large
crowds, and incidentally assists him in
disposing of goodly quantities of his
wares.

HE WILL MAKE A GOOD ONE.

John W. Walters Jr. has joined
Uncle Sam's force at the local post
office, he having been employed by
Postmaster Brown to serve as his deputy.
For politeness and affability we will
venture to say Lancaster will take rank
with the best of them. Both Post-
master Brown and "Miss Dolly" are
politeness personified, while the latest
acquisition is a perfect Chesterfield,
and the patrons of the office are not
only served cheerfully, but are in-
variably invited to "call again".

WITH THE BUSY FARMER.

There was perhaps never a more pro-
pitious week for the tobacco grower
than last, and the farmer took ad-
vantage of it to the fullest. The cool
nights with heavy dews added many
pounds to the growing crop, and the
cloudless sky, warm sunshine and a
gentle east wind brought ideal weather
for cutting, curing and housing. A
little over one half of the growing crop
is safely housed and is undergoing the
curing process. Every where the
farmer is compelled to look about him
for more barn room and more sticks,
and the farmer who had a ten acre
barn and the season prevented him
from putting out but eight acres, has
found that his ten acre barn was well
filled by the eight acres. The weed is
curing nicely, and we have heard of no
house burning or other trouble in cur-
ing, however in view of such a possibility
and in order to cure the weed more
rapidly so as to enable them to put it
more closely in the barn, many farmers
are procuring coke and curing more
rapidly by the assistance of coke fires
in the barns.

We have no reason to recede from
our original statement that the county
would produce this year seven million
pounds of tobacco, and we are more
confirmed in this belief when we are
informed by reliable men that a stick
of six plants is weighing seventy five
pounds.

There is no indications as yet as just
how the market is going to open up,
and there is scant probability of any
indication along this line for some time
to come. The farmer can only exer-
cise due diligence in the handling of
his crop, see that it is placed in the
very best possible condition before
being placed upon the breaks, and then
hope for the best in the way of prices.

ICE CREAM SUPPER.

There will be an Ice Cream supper at
the Mason school house on Lexington
pike on Friday night October 2nd. All
friends and patrons of the school are
urged to be present.

OLD CONFED GRANT-

ED PENSION.

Mr. Starling Payne who resides on
Back Creek in this county, and who
was a valiant soldier during the Civil
War, having espoused the cause of the
Confederacy, has been granted a pen-
sion. Mr. Payne is a good citizen and
his friends rejoice with him at his
good fortune.

GARRARD COUNTY

PRISONERS PAROLED.

Among the list of paroles recently
granted by the Board of Prison Com-
missioners and approved by the
Governor, appears the names of Less
Burton and Allen Jones, both colored,
and both sent up from this county for
term of from two to five years, the
former for manslaughter, the latter for
detaining a woman.

OLLIE JAMES INTERESTED

IN MOONLIGHT SCHOOLS.

Senator Ollie M. James offers, through
the Kentucky Illiteracy Commission, a
prize of Fifty Dollars to the teacher
who teaches the best moonlight school
this year, the Illiteracy Commission to
judge it from the result; number en-
rolled, average attendance, illiterates
taught and general interest. This will
be a reward and an honor for some
teacher. Let some one in our county
start a moonlight school and win it.

COULD KILL TWO BIRDS

WITH ONE STONE.

Lewis Landram is making much ado
about Ringling Bros. circus in Lexing-
ton and says he and Mr. W. C. Price
are going over to see it. Now this is
home to both of these boys, and they
are always welcome and meet with a
kindly reception, ask Sautley Hughes,
so why don't they just come over here
Monday and see Sautley's circus. It is
not quite as big, but just as good as
Ringlings and they would not get con-
fused trying to watch so many rings at
once. The animal smell and the red
lemonade will be just the same. Come
over Sunday and see 'em put up the
big tent.

PROHIBITION FIGHTS TO

END THIS WEEK.

The next issue of the Record will tell
of the result of the various local option
battles now being waged in various
parts of the state. The principal fights
are in Lexington and Maysville, where
the vote will be taken in both town and
county, and both sides are steadfastly
claiming victory. Winchester, Mt.
Sterling, Georgetown and many other
cities together with their counties, will
also hold elections next week.

At Somerset under a recent decision
of the Court of Appeals, the saloons
will close out for good and all on
October 1st. The outlook is for con-
siderable more dry territory in Kentucky
as a result of the coming contests.

NOW DOUBTS IF

POLITENESS PAYS.

It having reached the ears of some
of the Danville nimrods that doves
were plentiful in certain sections of
this county, Messrs W. C. Price, Ad
Lanier and Banks Hudson motored over
last week, and accompanied by Mr.
Sautley Hughes, who was to lead them
to the retreat of the game, they headed
for one of the large hemp fields.

Now our old friend Mr. Price, who
has seen more winters than he would
like to have us mention, is one of the
best wing shots in Kentucky, and a
sportsman to the core, would not deign
to take a fish save by hook and line or
to kill a bird save on the wing. How-
ever, Sautley did not know this, and
being nothing if not courteous and po-
lite and having that inborn respect for
gray hairs, he volunteered to conduct
Mr. Price to the choicest position of
vantage in the vicinity of the pro-
posed shooting, which chanced to be a
tree near the dove field. He himself
with great self sacrifice heing himself
off to a distant part of the field. Pres-
ently the birds began to make their ap-
pearance, all flying high and with scant
opportunity for a shot. They all seem-
ed to be heading for Mr. Price's tree.
Looking in that direction and very much
to Mr. Hughes' surprise and disgust,
as fast as the birds would light, Mr.
Price with his hat and arms waving
would "shoo" the birds from their
resting place, and as they flew would
nonchalantly pick them off as long as
there was one in sight.

The consequence was that Mr. Price
bagged a nice kill and with little exer-
tion while Mr. Hughes, tired and weary,
was compelled to return home with a
scant mess of birds. He has resolved
that in future his dove hunting excu-
sions will be made in company with
hunters whom he owes neither courtesy
as his guests and respects because of
their age.

Things are selling cheap at Moore's.

LIEUT. GOV. EVANS

IF YOU PLEASE.

The Louisville Times has the follow-
ing to say about our good friend, Col.
Robert Evans of Danville:

Col. Robert G. Evans, the Chester-
fieldian Danville politician, who is a
State Fair visitor in Louisville, said he
also came to the metropolis for the
purpose of getting the latest political
"dope". In the Seelbach Hotel lobby
last night several of Col. Evans' friends
urged him to get in the race for the
Democratic nomination for Lieutenant
Governor. They pointed out that Col.
Evans, being on "Easy Street" finan-
cially, did not need an office with pe-
cuniary emoluments and that he could
well maintain the position of Lieuten-
ant Governor, an office of great honor
and dignity, but with very little pay
attached.

JOE KELLY GOES WITH

LOUISVILLE TOBACCO

WAREHOUSE COMPANY.

Mr. Joseph P. Kelly has been engaged
by the Louisville Tobacco Ware-
house Co. to look after their interests
in Garrard county. Mr. Kelly will
solicit shipments to the Ninth Street
House, of which "Jim" Stone is man-
ager.

The tobacco people could not have
secured the services of a more popular
young man or a better judge of tobac-
co. A son of Mr. B. L. Kelly, the un-
disputed champion tobacco grower of
Kentucky, Joe himself is an expert
raiser and judge of the weed.

JEFFERSON COUNTY

IN THE LEAD IN FORCES

Enlisted Against Illiteracy.

Jefferson county has more volunteers
in Kentucky's illiteracy campaign than
any county in the State. Jefferson
county School graduates, one hundred
and two in number, were the first class
of common school graduates in the
State to volunteer to teach one illiter-
ate. Superintendent Orville J. Stivers
and ninety-five of his teachers have
volunteered to teach moonlight schools.
Mrs. Will S. Hays, of Louisville, will
see active service in the Jefferson
County campaign, as will Mr. J. W.
McConathy, who was President of the
Kentucky Educational Association some
twenty years ago.

PROF. CANEER HOLDS

GOOD INSTITUTE

At Warsaw.

The Warsaw Independent is loud in
its praises of Prof. Caneer, Superin-
tendent of the local Graded School, and
who recently conducted a teachers In-
stitute at Warsaw.

We clip the following:
Prof. M. L. Caneer, Supt. of the
Lancaster schools, has been the In-
structor at this Institute, and from ex-
pressions received from the teachers,
he has been an instructor in the real
sense of the term. His efforts have
been largely devoted to the develop-
ment of ideas on the part of the teach-
ers, themselves, and in the expression
of these individual conclusions an in-
terchange of thought and methods was
obtained that will make for larger use-
fulness in the work than the mere fol-
lowing of theories as laid down by lec-
tures or set addresses.

terest. Aside from being of the great-
est interest, you stand a chance to win

LARGE CROWDS

ATTEND CHRISTIAN

CHURCH REVIVAL.

The interest taken in the revival at
the Christian church is attested by the
immense crowds that attend each ser-
vice. Last Sunday night the house
was filled to overflowing and at least
one hundred were turned away. Rev.
Roy L. Brown is preaching some splen-
did sermons and making friends for
himself, besides bringing many souls
to Christ.

Mr. Paul Arnold, who has charge of
the singing, has a voice of unusual
volume and sweetness and is adding
very much to the interest of the meet-
ing. He has a special song for each
service, the one on Wednesday evening
being specially suited to his voice, was
beautiful indeed. Services each after-
noon at 2:30 and 7:45 at night. There
has been many additions to the church,
both by letter and confession.

KENTUCKIAN ESCAPES OPERATION BY USING MAYR STOMACH REMEDY

Mr. Burnett Says Wonderful Treatment
Saved His Life With Few Doses.

Horace Burnett of Somerset Ky., was a sufferer from Stomach disorders for a long time. His condition became highly serious and he feared an operation.

He took Mayr's Wonderful Stomach Remedy and got swift results. In a letter telling his experience he wrote: "Your treatment has certainly helped me wonderfully. I took my fifth dose last night and it brought good results. I have one more dose to take and I think I will be well. Your tonic is wonderful. I can eat anything now that I want to. I can never get thru thanking you for your medicine, for I know it saved my life, for I have tried all the doctors and they said I would have to be operated on."

Such letters come from all parts of the country. This remedy is known everywhere for its remarkable results.

Mayr's Wonderful Stomach Remedy clears the digestive tract of mucoid accretions and poisonous matter. It brings swift relief to sufferers from ailments of the stomach, liver and bowels. Many declare it has saved them from dangerous operations and many are sure it has saved their lives.

Because of the remarkable success of this remedy there are many imitators, so be cautious. Be sure it's MAYR'S. Go to R. E. McRobert's drug store and ask about the wonderful results it has been accomplishing in cases they know about or send to Geo. H. Mayr, Mfg. Chemist, 154-156 Whiting St., Chicago Ill., for free book on stomach ailments and many grateful letters from people who have been restored. Any druggist can tell you its wonderful results.

Lesson XIII.—Third Quarter, For
Sept. 27, 1914.

THE INTERNATIONAL SERIES.

Text of the Lesson, John iii, 14-21
(Quarterly Review)—Golden Text,
Rev. iii, 11—Commentary Prepared by
Rev. D. M. Stearns.

LESSON I.—The Laborers in the Vineyard, Matt. xx, 1-16. Golden Text, Matt. v, 45, "He maketh His sun to rise on the evil and the good and sendeth rain on the just and the unjust." He compares His people Israel to a vineyard in Isa. v and is grieved because they disappoint Him in the matter of fruit. Here it is a question of labor and reward. Many are mere hirelings and serve Him for so much. Better leave it all to Him.

LESSON II.—Greatness Through Service, Mark x, 32-45. Golden Text, Mark x, 45, "The Son of Man also came not to be ministered unto, but to minister and to give His life a ransom for many." While He talked of suffering they thought only of position in His Kingdom. When Peter asked Him not to think of suffering He said that savior of man and Satan, not of God (Matt. xvi, 23). Let us lay it well to heart.

LESSON III.—Blind Bartimaeus, Mark x, 46-52. Golden Text, Isa. xxxv, 5, 6, "Then the eyes of the blind shall be opened, and the ears of the deaf shall be unstopped." The blind man realized his need and his opportunity and would not be quieted. Such perseverance wins, and he was heard and answered and followed Jesus in the way. More requests would be granted if He could see like results.

LESSON IV.—The Pounds and the Talents, Luke xix, 11-27; Matt. xxv, 14-30. Golden Text, Matt. xxv, 21, "Well done, good and faithful servant; * * * enter thou into the joy of thy Lord." Saved by grace in order to work and then rewarded according to our works. His word to each is, "Occupy till I come." He gives opportunities, works in us and through us and gives us the credit of it.

LESSON V.—The Triumphal Entry, Mark xi, 1-11. Golden Text, Zech. ix, 9, "Rejoice greatly, O daughter of Zion. * * * Behold, thy King cometh unto thee." All that has ever been written concerning Him must be fulfilled (Luke xxiv, 44) and as literally as was this prediction. Literal, unless plainly a figure, is the only way to read the Bible, and we shall always find everything just as He said or as it is written (Luke xix, 32; xxii, 19).

LESSON VI.—The Barren Fig Tree, Mark xi, 12-14. Golden Text, Matt. vii, 20, "By their fruits ye shall know them." The apparent loyalty to Him of the last lesson was not real. They were, like the fig tree, all leaves, no fruit; all outward. Instead of prayer communion with God, it was merchandise even in the house of prayer. Their need and ours was faith in God without doubting.

LESSON VII.—The Wicked Husbandman, Matt. xxi, 33-46. Golden Text, Matt. xxi, 42, "The stone which the builders rejected, the same was made the head of the corner." This is another vineyard story, but this time it is a question of fruit for the owner, instead of which His servants are ill treated and His own son slain. But the rejected Son will yet be the accepted Messiah at the end of this age.

LESSON VIII.—The Wedding Feast, Matt. xxii, 1-14. Golden Text, Luke xiii, 34, "Oh Jerusalem, Jerusalem, * * * how often would I * * * and ye would not." The lessons of this portion are somewhat similar to the last—a slighted and despised invitation, with all treatment of the messengers and the self righteous presumption of one who would not accept a wedding garment. Everywhere and at all times it is the same story of man's enmity to God (Rom. viii, 7, 8).

LESSON IX.—A Day of Questions, Matt. xxii, 15-22. Golden Text, Matt. xxi, 21, "Render therefore unto Caesar the things that are Caesar's and unto God the things that are God's." The unsaved bear the image of this world and its god and can only render service to him. The saved ones bear the image of God and are expected to serve the Living and True God, living only to please Him and desiring only His approval.

LESSON X.—The Great Commandments, Mark xii, 28-34. Golden Text, Luke x, 27, "Thou shalt love the Lord thy God with all thy heart, * * * and thy neighbor as thyself." It is never a question of our keeping the law, which is intended to show us our guilt and is too holy for sinful man to keep, but the one great question for us is, What think ye of Christ? What is our relation to Him? Is our all fully yielded to Him?

LESSON XI.—The Ten Virgins, Matt. xxv, 1-13. Golden Text, Matt. xxv, 13, "Watch, therefore, for we know not the day nor the hour." As we saw in our lesson, this probably refers to Israel at the time of the return of Christ with His church after the marriage of the Lamb, but the message for each believer is to see that our lamp is filled, well trimmed and always burning.

LESSON XII.—The Judgment of the Nations, Matt. xxv, 31-46. Golden Text, Matt. xxv, 45, "Inasmuch as ye did it not unto one of these least, ye did it not unto me." Salvation depends upon our union with Christ, and all else depends upon our understanding of our business with Him. We must see ourselves, if we are redeemed, as sharing His throne and His glory. Then we shall never wonder if we are either sheep or goats in Matt. xxv.

LOCAL SCHOOL TRUSTEES

TAKE LONG STRIDE

In Right Direction.

It was indeed a splendid inspiration that induced the trustees and faculty of the local school to introduce the splendid new features which are about to be introduced in the local school, and one for which they will receive the thanks of the patrons, both now and in the next generation.

Though it seldom occurs to the average person, it is nevertheless a fact, that there are youthful minds that positively will not take to an education, it is absolutely impossible to teach them anything from a book, they will make absolutely no effort in that direction. Oftentimes such pupils take to manual training like a duck does to water, and the result is that they are given the next best thing to an education, they are given the rudiments of a useful trade, something that will enable them in after life to earn a livelihood for themselves and those who are dependent upon them.

It is not proposed to install the entire course, domestic science, agriculture and manual training, at once, this would be impossible, but gradually the work will be increased, until within a very few years the entire course mentioned will be taught in detail, just the same as any other course will be taught in the school. For the present there will be plain sewing and fancy work for the girls, and the rudiments of carpentry and agriculture for the boys, and gradually the scope of this work will be enlarged until a large class in sewing, cooking and all branches of domestic science and the higher branches of carpentry and architecture, and practical farming will be taught. The hum of the sewing machine will be heard, the aroma of dainty dishes in course of construction on the range will meet the nostrils, and the sound of the saw and hammer will be ever present, and the young ladies will be instructing their mothers in the art of cooking, while the boys will be advising his father as to the best and most economic method for cultivating the farm.

But all this costs money. Yes, of course, what of advantage pray may we have in this world that does not cost money? We pay school taxes that our children may be educated, and what better education could a child have than to teach him something that will enable him or her to be of some use in the years to come? In all the large schools, both public and private, these lines are being introduced, and are being met with a hearty reception.

The trustees have agreed to furnish what is necessary in the way of tools and necessary paraphernalia, also to provide rooms for the classes, and for the present the faculty together with considerable assistance which Prof. Bohannon has promised them, the latter without cost, will be able to handle the newly installed work, but gradually as the work is installed to its fullest and the classes grow in size, additional teachers will have to be employed to teach these particular branches.

One great advantage of the new departure is that it will not be confined solely to the higher grades. All will have an opportunity to take the new course, which while it has not yet been fully decided, but it is thought will begin along about the third or fourth grade.

Have you ever visited the Lancaster School since it has been in the new building? If not you should go at once. It is a revelation in the way of a modern school, and you as a patron should see it. You are always welcome, go and see how your child is getting along.

BACKACHE IS A WARNING

Lancaster People Should Not Neglect Their Kidneys.

Backache is often nature's most frequent signal of weakened kidneys. To relieve the pains and aches, to remove the lameness when it arises from weakened kidneys, you must reach the cause—the kidneys. If you have pain thru the small of your back, urinary disorders, headaches, dizzy spells, or are nervous and depressed, start treating the kidneys with a tested kidney remedy.

Doan's Kidney Pills have been proved good and are especially for weak kidneys. Doan's have been used in kidney trouble for over 50 years. Here is convincing proof of merit. It comes from this locality.

R. C. Faulkner, R. F. D. 2, Box 134, Paint Lick Ky., says: "I suffered for some time from a weak back. A dull pain through my loins gave me much trouble. I learned about Doan's Kidney Pills and used them. They soon removed the aches and pains."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Faulkner had. Foster-Milburn Co., Props, Buffalo N. Y.

"Cured"

Mrs. Jay McGee, of Stephenville, Texas, writes: "For nine (9) years, I suffered with womanly trouble. I had terrible headaches, and pains in my back, etc. It seemed as if I would die, I suffered so. At last, I decided to try Cardui, the woman's tonic, and it helped me right away. The full treatment not only helped me, but it cured me."

TAKE

Cardui

The Woman's Tonic

Cardui helps women in time of greatest need, because it contains ingredients which act specifically, yet gently, on the weakened womanly organs. So, if you feel discouraged, blue, out-of-sorts, unable to do your household work, on account of your condition, stop worrying and give Cardui a trial. It has helped thousands of women,—why not you? Acute Indigestion.

"I was annoyed for over a year by attacks of acute indigestion, followed by constipation," writes Mrs. M. J. Gallagher, Geneva, N. Y. "I tried everything that was recommended to me for this complaint but nothing did me much good until about four months ago I saw Chamberlain's Tablets advertised and procured a bottle of them from our druggist. I soon realized that I had gotten the right thing for they helped me at once. Since taking two bottles of them I can eat heartily without any bad effects." Sold by all dealers.

CARE IN MARKETING TOBACCO CROP URGED

COLONEL DAN W. PEED SAYS 1914 YIELD IS ABOVE THE AVERAGE.

Moderation in the marketing of the 1914 crop of Burley tobacco as a result of the tightness of the money market, is the advice of Colonel Dan W. Peed, the well-known tobacco broker of Paris who will have his interests at Lexington with the opening of the 1914 loose leaf sales. Colonel Peed was at the Phoenix Hotel yesterday and said:

"Just now the country is faced with a tight money market due to the European war. When the time comes to market the tobacco crop this condition may change for the better, it can't get any worse.

"The manufacturers will want the tobacco, as their supply treasured from last year is due to run short before another crop can be grown. If the manufacturers encounter much difficulty in negotiating their paper for loans to move the crop, then the farmer must share in the policy of carrying the crop. I mean by this that he must not rush his entire crop on the market, but send in a load at a time.

When asked if in his opinion the government would come to the aid of the tobacco growers as it did the wheat and cotton growers by placing in the disposal of banks throughout the Burley district money with which to aid the situation, Colonel Peed said:

"Such a policy would help the situation decidedly, because if the farmer didn't care to place his tobacco on the market he could at least borrow money, pledging his crop as collateral."

Colonel Peed was asked to express an opinion about the crop as it now stands in the field, and said:

"Bourbon, Fayette, Clark, Montgomery, Woodford, Scott and portions of Nicholas, Harrison and Jessamine counties have produced the largest crop of tobacco ever grown. Bourbon County has its banner crop, a crop that will weigh out more than 10,000,000 pounds.

The increase in those counties will meet the loss in Bath, Robertson, Pendleton, Bracken, Spencer, Anderson and other districts caused by a decreased acreage and a poor stand, and make the total production equal to that of last year."

"The weather," Colonel Peed said, "is ideal for cutting and housing the crop now, but the weather is an important factor and things could change rapidly within less than a week."—Lexington Herald.

HOW TO BEAUTIFY THE HAIR

A Simple and Inexpensive Home Method.

If your hair is not pretty; if it is losing its color, too dry, matted, falling out, or if the scalp itches and burns, you can overcome all of these conditions by using Parisian Sage, which supplies every hair need. It soaks right in to the hair roots, nourishment that is needed for the hair to grow not only long and heavy, but fluffy, soft lustrous and gloriously radiant.

You can get a bottle of this inexpensive, yet delightful and helpful hair tonic from R. E. McRoberts or at any drug store. Improvement begins with the very first application. Besides stopping the scalp irritation it removes every bit of dandruff. The use of this unequalled hair tonic will surely give your hair new life and beauty.

WOMEN AND THE RIGHT TO VOTE

Should Be Given Time to Exercise Franchise.

LITTLE TROUBLE FOR THEM.

By VIRA BOARMAN WHITEHOUSE.

NO objection made to woman's suffrage is that women will not have time to vote. Miss Alice Buck, representing the anti-suffragists and speaking at a working woman before a congressional committee in Washington, December, 1913, said, "We do not want the vote principally because we feel that we have quite enough to occupy our time now, regardless of politics."

Joseph G. Pyle in a lengthy read before the same congressional hearing explained that for the farmer's wife "voting is a hardship too great to be endured. Aside from the preliminary preparations, she must go to the polls, often in inclement weather, walking or riding several miles to get there; but, above all, it is the wife and mother living at home, whose domestic duties are supposed to leave her no time to vote."

The view that voting takes a very great deal of time seems to be a general one among the anti-suffragists. But men who vote assert that the actual time spent in a polling booth, even at the most crowded election, does not exceed half an hour and is usually not more than ten minutes.

Elections infrequent.

Elections are not daily or even frequent occurrences, as these objections to women voting would seem to suggest. In some places the municipal, county, state and federal elections are all held on the general election day—the first Tuesday after the first Monday in November. In other places the local elections are held in the spring. There are at times special elections, as, for instance, the recent one of April 7 here in New York state to determine whether or not there should be a constitutional convention. Such special elections are rare and seem to arouse little interest.

There are also, since the passage of the law providing for direct nominations, primary elections, at which the enrolled members of each political party ought to vote. But when every kind of election is taken into account the most conscientious citizen is not called to the polls more than two or three times a year and the actual time spent in voting does not exceed at the most liberal allowance an hour or two a year.

All men of course do not vote. In the presidential election of 1912 the total number of those voting was less than 15,000,000 while the number eligible to vote was over 24,000,000. The proportion of men voting at this election was somewhat smaller than at the preceding ones.

It is not lack of time, however, that keeps so many men from the polls. It is rather lack of interest. No business or work can be an excuse for this failure of the duty of citizenship, as in thirty-nine states election day is a legal holiday, on which no business is transacted.

A Large Class.

Working women now form a very large class in this country. It is estimated that there are about 8,000,000 or 10,000,000 of them. They would have, of course, the same facilities for voting as are given to workmen. Factories, shops and business offices are closed on election days.

The farmer's wife has grown up as a country girl in the open air. In her youth she probably walked each day to school and back and each Sunday to church. She will not be daunted by a distance of a few miles to do a duty which will bring her in return such great interests.

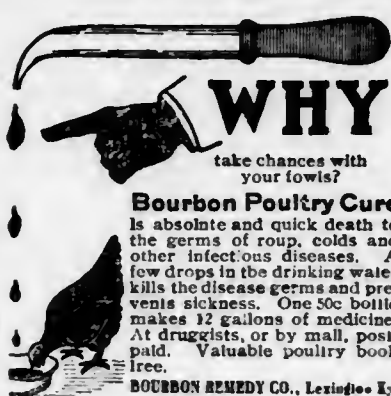

Rich women with servants to relieve them of household work and nurses or governesses to take charge of their children have time for whatever takes their fancies. It is, of course, particularly the wife and mother in the home who, it is believed, will have no time to vote. Men count eight hours as a day's work, but her mysterious duties are supposed to keep her permanently a prisoner within her four walls. If it is indeed true that such women are so hard driven, day after day, that they cannot even make any arrangement to leave their work for an hour or two a year, should not such a condition be changed?

Large Property Holders.

It would be unendurable to think that the conditions of society bear so heavily upon women that they cannot leave their duties even for the few minutes necessary for voting and that their lives, in spite of easy means of communication and cheap daily papers, are so cut off from all communal interests that they have no chance for forming political opinions.

NATIONAL PRAYER DAY FOR PEACE

SUNDAY, OCTOBER 4, 1914.

President Woodrow Wilson, by proclamation, has appointed Sunday, Oct. 4, a national day of prayer for peace in Europe and called upon all God fearing persons to gather in church on that day and petition Almighty God to heal again and restore once more concord among men and nations. The proclamation follows:

"Whereas, Great nations of the world have taken up arms against one another and war now draws millions of men into battle whom the counsel of statesmen have not been able to save from the terrible sacrifice; and,

"Whereas, In this as in all things it is our privilege and duty to seek counsel and succor of Almighty God, humbling ourselves before him, confessing our weakness and our lack of any wisdom equal to these things; and,

"Whereas, It is the especial wish and longing of the people of the United States, in prayer and counsel and all friendliness, to serve the cause of peace,

"Therefore, I, Woodrow Wilson, president of the United States of America, do designate Sunday, the fourth day of October next, a day of prayer and supplication and do request all God fearing persons to repair on that day to their places of worship, there to unite their petitions to Almighty God, that, overruling the counsel of men, setting straight the things they cannot govern or alter, taking pity on the nations now in the throes of conflict, in his mercy and goodness showing a way where men can see none, he vouchsafe his children to heal again and restore once more that concord among men and nations without which there can be neither happiness nor true friendship nor any wholesome fruit of toil or thought in the world, praying also to this end that he forgive us our sins, our ignorance of his holy will, our willfulness and many errors, and lead us in the paths of obedience to places of vision and to thoughts and counsels that purge and make wise."

Harvey Helm, of Stanford.

There is a growing tendency among a great many people to borrow trouble, or to make use of a familiar expression "to cross the river before they get to it". Especially is this the case with the farmer, and a great number of them are already developing gray hairs over the probability of a low price for tobacco this season. The worry, if not uncalled for, is at least premature, we do not say the former is the case, but we do contend that there is plenty of time to cross the bridge after you reach it.

We do not say that tobacco will be either high or low, there is no living man who can at the present time accurately predict as to the price which the present crop will bring. We furthermore acknowledge that the outlook just at present is somewhat gloomy. However, we are told that "every cloud has a silver lining"; and before the actual opening of the market, which is fully two months ahead of us, there may be material changes, there may be a clearing away of the present apparent cloudy condition of the price outlook and a strong, healthy market may develop. Leastwise there is nothing to be gained by worrying over the matter.

The time you are now devoting to worry and speculating as to just what your crop is going to bring could be much more profitably employed in getting your crop into the very best possible condition, in order that it may command the very best price regardless of what that may be.

The crop far exceeds expectations as to bulk, and in consequence barn room is at a premium, and in consequence some growers are inclined to crowd their barns beyond their actual capacity, for which they may perhaps be sorry. Should "soft" weather develop, they would regret that they had not made arrangements to house their surplus elsewhere rather than crowd a ten acre crop into an eight acre barn. Regardless of what the prevailing price may be, the best crop is not always the crop that brings the best price, but the best handled crop invariably brings its full value, regardless of the quality of the tobacco, which goes to show that there is as much or more in the handling than there actually is in the quality of the tobacco.

A few weeks ago the outlook for the cotton prices in the south were much more gloomy than the present outlook for tobacco prices, but an unforeseen

event bids fair to turn that gloom into sunshine. An old business man in Atlanta Ga. suggested that every business house in the country invest \$50, in a bale of cotton, and hold it until the market opened up again. This suggestion was published in an Atlanta paper, the press thought the country copied it, and as a result a "buy-a-bale" movement was started all over the country. One mail order concern placed an order for 10,000 bales, business houses all over the country are joining the movement, banks are asking that warehouse receipt for cotton be made a basis of collateral, colleges are accepting cotton as cash on tuition, insurance companies are accepting cotton in payment of premiums on policies, and the suggestion of the Atlanta man bids fair to relieve the cotton situation.

We cite this merely as an instance, and to show that "something can always happen". There is ample time for favorable development as concerns the tobacco situation, and in the meantime, worrying will not either raise or diminish the price any part of a cent on the pound.

THREE COUNTIES GO "WET" MONDAY.

Local option elections were held in Christian, McCracken and Davies counties, and Hopkinsville, Paducah and Owensboro, their respective county seats on last Monday, and as many victories for the liquor element was the result. The majorities ranged from 800 to 1000. Twelve other counties will hold elections on the liquor question on next Monday, among which are included Fayette and several other of the leading counties of the state, at which time the anti-liquor people hope and expect to annex the majority of the number to the dry column.

AND WE LIKE TO BE CROWDED.

Our advertising friends have certainly been crowding us the last two weeks, as we hope they will the next two and all succeeding weeks. Last week and this we have been compelled to run ten pages, and we are ready and willing to add just as many additional pages each week as are necessary to meet the requirements of our patrons. The Record is recognized as the very best possible advertising medium and our merchants are rapidly coming to a realization of the fact. Incidentally we are not curtailing the amount of live news, instead of a scarcity of news matter and a brief word of apology, therefore, we add live reading matter in proportion to the number of additional all pages we run each week.

Getting out a good paper, do you take it, if not come in next Monday and let us add your name to our list of subscribers. We know you will like it.

HIS WORK PRAISED.

Attorney P. H. Taylor, of Danville, District Lay Leader, has passed a very high compliment on the work done by Dr. E. H. Pearce in the latter's charge during the past two years. The membership of the church was not only built up, but interest and work by those on the printed church Directory now more satisfactory than ever before. Dr. Arnold, the presiding elder, also joined in praising the work of Dr. Pearce. We have never known a more sincere or earnest pastor, and the Record trusts that he will be spared many more years to assist not only his own flocks, but "the boys", as he terms his friends about town, and which is in membership of all churches, as well as the unchurched.

Some items of the official report of the ministerial work are for note in the two years service.

Dr. Pearce has had cordial welcome to his new station of excellent people at Lawrenceburg, with preaching service twice each Sunday there: Lawrenceburg being 30 miles by rail (Louisville Southern) from Danville with two trains daily; the town, of 2000, one of the most progressive in Central Ky.

Final gospel campaign in Garrard; 1912-14 at Bryantsville and Buena Vista, (Olivet). First was 1902-4; as Pastor of Lancaster: 1908-12, Lancaster and McKendree (Hubble); 1912-14, Bryantsville and Buena Vista; an 8 years total with 151 professions of faith; with increase of 75 per cent in fiscal for benevolence etc. Also a happy fellowship with brother pastors and membership of other churches; also an esteemed friendship with the unchurched.

THE WAR, DAY BY DAY.

MONDAY.

Italy, according to report from Rome has more than half a million men under arms.

An official statement from Petrograd says that the Russians are bombarding the strong Austrian fortress of Przemyśl. It also reports repulses of the Austrians with heavy losses near Baranow and Ranichow in Galicia.

In the fighting around Rheims, the matter of greatest general interest has been the destruction of the famous cathedral, one of the most noted structures in the world, dating back to the Thirteenth century. It is reported first to have been pierced by many German shells and then to have burst into flames. Against this destruction of the Cathedral, the French Government had decided to send through diplomatic channels a protest to all the Powers.

Reports differ as to the progress of the great battle in Northern France, between the allied British and French armies and the Germans. Some indicate that there is extremely heavy fighting, while others tell of the great masses of troops, many of them at the stage of exhaustion, lying in flooded trenches. At some points, at least, fierce engagements have been fought, with the tide flowing first in one direction and then in the other. The Allies have won a position here, and the Germans have gained one there. But all reports, official and otherwise, agree that there is much fighting yet to be done before any material advantage can be claimed by either side. The British in the trenches say: "We are slowly beating them back". The French official statement declares that the furiously counter-attacked by superior forces and obliged to yield some ground, this was regained almost immediately.

TUESDAY.

The German Emperor has taken up his quarters in Luxemburg, according to a Paris dispatch. To guard against possible raids by French aviators a squadron of German aeroplanes is in readiness to ward off any such attempts.

The nature of the struggle between the Germans and the allied forces on the battle front in France, which stretches from Noyon in the west to Verdun, is indicated by the latest official communication from the French War Office, which says that the engagements have become less violent. From this it would seem as if both sides had reached the conclusion that the gaining of a few yards of ground hardly warranted the losses entailed, and that preparations are on the way for a strong offensive movement at some strategic point. The French also report that they have made progress in the territory between Rheims and the Argonne forest. On their left wing they have reached the heights of Lassigny. With the French on this part of the battle line are the British, who, according to an official statement issued by the British press bureau, have fared badly since the beginning of the war in the loss of officers.

WEDNESDAY.

Sarajevo, the Capital of Bosnia, which was abandoned by the Austrians after a heavy defeat, has been occupied by the Servians and Montenegrins.

Severed communication between Berlin and Breslau led to the belief that the Russians had reached that point and were engaged in an attack on the city.

It is stated that the movement to get around the German right wing is meeting with some success, and if this is true it is thought that the German forces will be in an extremely dangerous position.

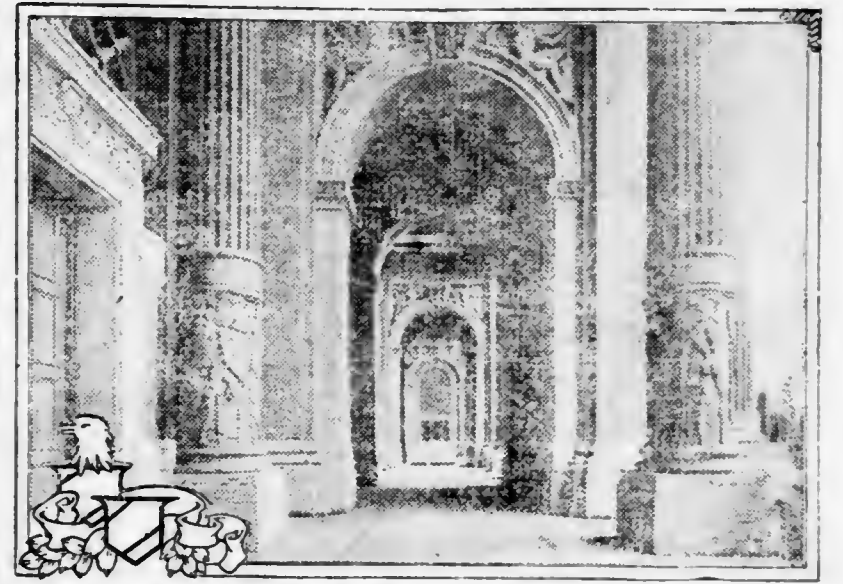

The French official bulletin issued last night says that the situation is unchanged. It is believed by the military experts, however, that the Battle of the Two Rivers will last three or four days longer and that the Germans then

will be driven entirely out of French territory.

The first report of the British operations in France issued since the Germans have been on the retreat was given out last night by the War Office. It shows that the two armies fought for days with only the river Aisne between them, and the heaviest part of the work fell upon the artillery divisions.

Naval operations took the center of the war stage yesterday, when three British cruisers were sent to the bottom of the North Sea by five German submarines. It is reported that three of the attackers were afterward sunk. Each of the sunken vessels carried a crew of 775 men, and it is estimated that only 700 were picked up by the crafts near them.

The Russian main army is advancing steadily toward Cracow, brushing aside or hotting up Austrian forces seeking to stay the advance. There are indications that German re-enforcements will be employed with the Austrians in throwing up a strong defense of the city of Cracow itself, and that the Austrians will abandon the effort to stop the Russian advance at a distance from the city.

MASONIC TEMPLE AT RICHMOND COLLAPSES.

On Saturday morning about eight o'clock the Masonic Temple, at Richmond collapsed causing an almost complete loss to the building. The building was of three stories, the ground floor of which was occupied by the Covington Dry Goods Co., the second story serving as a dance hall and the third floor being used as the meeting rooms of the lodge. Luckily no one was hurt in the collapse.

GARRARD COUNTY DOGS To Go To Far Off Yukon.

Mr. A. K. Walker has received an order from Paul S. Hogan of Yukon, Alaska for four dogs of the famous Walker strain of fox hounds, the dogs to be the pick of the kennel, to be shipped to him by express. The price is a long one and is private, but these dogs often sell for \$100 each. The express charges alone on the shipment will amount to \$150, and this added to the cost price will make the dogs come pretty high to Mr. Hogan. Wherever men ride to the hounds this celebrated strain of dogs are known and are prized above all others.

"THE QUEEN OF THE MOVIES" In Lexington.

"The Queen of the Movies," which will be the attraction at the Ben Ali Theatre, Lexington, for three performances, Sept. 28-29, with a matinee on Tuesday, is a musical comedy with real music, honest-to-goodness comedy, a cast filled with strong individuals and contains a chorus the like of which for its beauty and shapeliness has never before been seen away from Broadway.

In an era noted for the extravagance and display of its theatrical exhibits, "The Queen of the Movies" ranks as the season's most prodigious specimen. "The Queen of the Movies" is full of snap from the rise of the curtain, brimming over with all that is the last word in the dancing world and its catchy songs and up-to-date dialogue is enough to carry two entertainments of its kind. The company consists of 80 people and an all-star cast headed by Miss May De Sousa.

The story is that of a war between the movies and anti-movies, with Cecelia Gill representing the movies and Mrs. Clutterbuck, society leader and wife of a millionaire, leading the anti with her husband's name and money backing her. The battle is going rather against the movies until Cecelia conceives the idea of getting a film of Mr. Clutterbuck and herself, trusting to its possession to force the anti to abandon their warfare. Of course she wins.

The fun of this new and exhilarating musical comedy is kept at top-speed throughout the entire performance. The dances are new and bewilderingly graceful. The music is a delight and half a dozen of the numbers—"Oh, Cecelia," "Follow the Crowd," "In the Night," "Girls, Run Along," "Whistle" and "Moaning Along," have been sung, whistled and danced to throughout the land.

This attraction will be given with a specially augmented orchestra. Seats ready Friday, 25th. Remittances sent to Manager Charles Scott will receive prompt attention.

COMMISSIONER'S SALE OF LAND.

GARRARD CIRCUIT COURT.
James T. Doty, et al., Plaintiffs,
VS.
W. A. Doty, et al., Defendants.

Pursuant to a judgment rendered at the June Term, 1914, the undersigned Commissioner will sell at public auction before the Court House Door in Lancaster, Kentucky, at 11 o'clock A. M. or thereabouts, on

MONDAY, SEPTEMBER 28, 1914, it being the first day of the Garrard County Court Term, the real estate mentioned in the pleadings and described as follows:

First: A house and lot in Lancaster, Garrard County, Kentucky, on the North side of Danville street and bounded as follows: Bounded on the East by R. E. McRoberts; on the North by the property of W. O. Kigney (now Jennie Mount); on the West by the property of George Smith and on the South by Danville street, being the same property conveyed to Lizzie L. Doty by Mattie P. Frisbie, and recorded in the Clerk's office of the Garrard County Court in Deed Book 21, page 530, and said deed is referred to for more specific description of the same.

Second: A tract of land in two boundaries and adjoining, in Garrard County, Kentucky, at Point Leavell and is bounded as follows, to-wit:

1st Tract: Beginning at a stake at the South edge of the Lancaster turnpike, 1 pole from the center of the same near the East abutment at the end of the wing wall of the bridge across the West fork of Back Creek; thence down the creek on the East side N 34 W to beech trees and (ft) 37.6 poles to a box elder stump turned out of root on the same East side; thence N 83 W 4 poles to 3 box elders growing from the same root and on the East bank of said creek; thence down the same on same side N 28 1/2 W 13 poles to a stake at the West side of roots of a sycamore on same side of creek; thence down the same and in the same N 91 E 1 1/2 poles to a stake at the end of a stone fence on the East side of said creek (all the foregoing corners to James G. Denny); thence his line N 4 E 89 poles to a stake in said line S 88 W 23 poles to a sycamore on the West side of a creek; thence S 73 W 7 1/2 poles to a stake at corner of plank fence; thence N 77 1/2 W 72.3 poles to a stake in A. R. Denny's line, near a black walnut; thence S 20 1/2 E 5 1/2 poles to a stake near a small black walnut corner; thence S 46 W 24 7/8 poles to a stake in A. R. Denny's line and corner to James N. Denny; thence S 25 1/2 E 29.1 poles to a stone near a sugar tree; thence S 19 1/2 W 36 poles to a stake on the Lancaster and Richmond turnpike; thence with same N 80 1/2 E 8 1/2 poles, S 26 1/2 E 36 poles S 51 E 13 poles, corner to William Beazley, (colored); thence with his line N 22 E 20 poles to a stake N 23 E 31 poles to a stake; thence S 78 E 38.8 poles to a post near a spring; thence S 29 E 9 poles to a stone; thence S 104 --- to a stake in said turnpike; thence S 79 E 23 1/2 poles to W --- 31 1/2 poles to the beginning, containing 89 acres and 33 poles, being the same land conveyed to said Elizabeth Doty by John Y. Leavell, et al., by deed dated September 25, 1879 and recorded in the Clerk's Office of the Garrard County Court in Deed Book 23, page 208.

2nd Tract: Beginning at a stake in the Richmond and Lancaster turnpike road, running thence N 80 W 13 poles to a stake in said road; thence S 80 1/2 W 38.8 poles to a stake inside of the said road; thence N 22 E 20 poles to a stake near a gulch; thence N 23 E 34.3 poles to a post; thence S 78 E 38.3 poles to a fence post near a spring; thence S 29 E 9 poles to the beginning, containing 12 acres and 7 1/2 poles, being the same land conveyed to Lizzie L. Doty by J. A. Doty by deed dated November 7, 1911, and recorded in the Garrard County Clerk's Office in Deed Book 23, page 208.

Through the aforesaid land there is reserved a passway leading from the land of J. A. Doty over the said land herein described to the Richmond and Lancaster Turnpike at Point Leavell. Said passway runs parallel with and on the West side of Back Creek on said land and is the same that now used and has been used for many years as the road from the said pike to the residence of the said J. A. Doty, and the same is 16 feet wide, being the same passway conveyed to J. A. Doty by W. A. Doty, by deed dated December 21, 1906, and recorded in said Clerk's office in Deed Book 22, page 125.

The purpose of this sale is to pay the debt due Mattie P. Frisbie of \$1,000.00, with interest at 6 per cent from January 1, 1914, until paid, and further to divide the residue of the proceeds after the payment of costs between the heirs-at-law of Elizabeth L. Doty, as their rights may appear.

TERMS.
The sale will be made on a credit of six and twelve months and the purchasers will be required to execute bonds with approved security for the purchase price, due in six and twelve months bearing six per cent interest from date until paid, having the force and effect of a judgment upon which execution may issue, payable to W. H. Brown, Master Commissioner of the Garrard Circuit Court, and a lien will be reserved upon the property sold until all the purchase money is paid. The property in Lancaster, Ky., and the property at Point Leavell, Ky., will be sold separately.

HARVESTING SOY BEANS.

When Grown For Hay They Should Be Cut When Pods Are Forming.

[Prepared by University of Wisconsin agricultural experiment station.]

Soy beans grown for hay should be cut when the pods are forming and before the plant begins to drop its leaves. If delayed too long the lower leaves may drop off and thus the most valuable part of the plant be lost. The stems also become woody and consequently less palatable to stock. It is preferable to cut early rather than too late.

The crop may be cut with an ordinary mower. The beans should be cut early in the morning after the dew is off or late in the afternoon. If cut in the morning they may be allowed to wilt until late in the afternoon of the same day and then put up in small cocks. This work is often done by hand, as the leaves fall off readily. A horse rake, however, may be used when the vines are nicely wilted, but not dried. As they shed water quite well in wet weather the small cocks may be left to cure for several days. If the weather is fair the small cocks are turned over before noon and allowed to cure thoroughly. When the weather is unfavorable it is advisable to bunch a number of cocks together, cover with a hay cap and allow to cure for several days. Soy bean hay

SOY BEANS.

has high feeding value, about equal to alfalfa if well cured; hence the importance of handling the crop properly so as to retain the leaves. This, in common with alfalfa, peas, clover and other leguminous hays, should not be put up in unprotected stacks. If necessary to stack cover the top and sides with canvas or boards. The best place to store is in the closed mow or barn. It should be handled as little as possible after curing, for there is danger if handled carelessly of losing the leaves.

Soy beans intended for seed should be allowed to ripen well and may be cut with a scythe, mower or bean harvester. Some harvest the crop with grain binder and others with corn harvester. Both of these machines, however, shatter the beans and cause considerable loss.

When cut with a mower without windrowing attachment the plants should be removed at every round out of the way of the horses, for if trampled upon a large percentage of the seed will be shelled out and wasted. After cutting the beans are allowed to cure in windrows or bundles and are hauled in as soon as dry.

Provided the regular grain concaves are removed from the machine and blank concaves used in their place, soy beans may be thrashed without much injury with the ordinary thrasher. The thrasher cylinder should be run at less speed than when thrashing grain, while the separator should be run at the usual rate of speed. To accomplish this a larger drive belt pulley is used and a correspondingly larger pulley on the opposite end of the cylinder.

The beans should be stored in barrels or shallow bins or spread out on a floor, where from time to time they can be shoveled over until they are thoroughly dry and hard. Later they may be safely stored more compactly.

The dry beans will keep nicely for several years when not exposed to the elements. They can be fed whole to pigs and sheep, but for general use it is preferable to crack or grind them.

Tests have shown that it is often necessary to mix the beans with corn or peas to grind them into meal, as the beans are too soft to granulate well alone. Too large quantities should not be ground at a time, as the high oil content will cause the meal to heat and turn rancid, making it unfit for feed.

Summer Spoilage of Eggs.

Why work and worry raising chicks, feed them all winter and then let half the eggs spoil during the hot summer months? Last year in the warmer portions of the country almost half the eggs leaving the farm were unfit for food. This was in addition to the large item of the eggs lost and spoiled outright by the hens laying in the weeds and grass and in inaccessible places.

Chanticleer is responsible for a large percentage of this loss. Fertile eggs begin to incubate at once in hot weather, and the loss in spoiled eggs can be reduced at least 75 per cent by promptly getting rid of the roosters as soon as hatching eggs are no longer wanted.

HOW TO BEAUTIFY THE HAIR

A Simple and Inexpensive Home Method.

If your hair is not pretty; if it is losing its color, too dry, matted, falling out, or if the scalp itches and burns, you can overcome all of these conditions by using Parisian Sage, which supplies every hair need. It soaks right in to the hair roots, nourishment that is needed for the hair to grow not only long and heavy, but fluffy, soft lustrous and gloriously radiant.

You can get a bottle of this inexpensive, yet delightful and helpful hair tonic from R. E. McRoberts or at any drug store. Improvement begins with the very first application. Besides stopping the scalp irritation it removes every bit of dandruff. The use of this unequalled hair tonic will surely give your hair new life and beauty.

"Shorthand by Machine"

Students Writing It

We are teaching "The Machine Way in Shorthand" to an intensely interested class. And we want you to see these students write on this machine. "The Machine Way in Shorthand" is called Stenotype, and is written on a machine called the Stenotype. The Stenotype is one of the Four Great Machines that are saving the most time today in business.

You have seen its method advertised in the great national magazines. Now come and see, in an actual demonstration, what "Machine Shorthand" is and what it is doing. See what it enables the average young man and woman to do in stenography today.

Writes Plain English Spelling

Here is a system that enables you to write "shorthand" with great speed, accuracy and ease.

For Stenotype is simply plain English spelling with the silent letters dropped. The Stenotype writes it in plain alphabet type—the kind you learned when you first went to school.

Not one of the usual shorthand characters is used.

So there is only a little to learn about Stenotype that you don't already know. Learning to write it is mostly a case of learning to write on this simple machine, which embodies only 22 plainly stamped keys.

Come see the Stenotype before you enroll anywhere else. We teach both the "Machine Way" and the "Hand Way" in Shorthand. Come decide which you want to take.

Better Salaries

There are today in business thousands of successful Stenotypists. They are

The STENOTYPE
The Fastest Writing Machine in the World

accurate writers and unusually fast, for this machine permits accuracy and speed with ease. And their services, therefore, command higher salaries than are usually paid for stenographic work.

Students of Stenotype upon graduation are getting a premium price for their services. Because they enter business with a degree of efficiency that is not attained by the ordinary beginner.

Millions of

Business Men Now Know

The Stenotype and Stenotypy are now being advertised to millions of business men every month.

Soon every business man who hires stenographers will know what Stenotypists can do.

He will know of these legible Stenotype notes which can be transcribed by

any Stenotypist as accurately as by the one who wrote them—notes which are read as easily a year after they were written as the day they were taken down.

315 Colleges Are Teaching Stenotypy

Stenotypy is being taught today in 315 business colleges in every important city in the United States.

Thousands of students, having investigated it, are now learning to take dictation this way.

We are teaching Stenotypy because its principle is fundamentally sound and right—because W. S. Ireland, the inventor, an expert Court Reporter, spent nine years in perfecting it before he announced it—and because the Stenotype and Stenotypists have gained a permanent place in business.

Come See It Today

Call at our offices today and we will demonstrate Stenotypy and the Stenotype.

We will show you why so many students are studying this system. We will show you how you can write on this machine.

You are not obligated in asking a demonstration.

Bring your mother or father with you if you wish.

You will see in this system of taking dictation some great possibilities for a good start in business and future rapid advancement.

So come see the Stenotype. Learn for yourself why it means higher efficiency and better salaries.

OPENING GUN

IN DEMOCRATIC CAMPAIGN
TO BE FIRED IN SOMERSET NEXT MONDAY.

Gov. Beckham, Senator James And Camden To Speak.

The Democratic campaign in Kentucky will open in Somerset on next Monday the 28th inst. The meeting will be presided over by Gov. McCreary, the key note speech will be made by Gov. Beckham, while Senators James and Camden, Judge Rolla Hurt, nominee for Judge Court of appeals and Nat. B. Sewell, nominee for Congress will be among the speakers.

A mighty effort is going to be made to carry the "bloody Eleventh", and it is claimed with good prospects for success. A brass band will make music for the occasion, there will be excursion rates on the Q & C, and a record breaking crowd is expected.

MAY RUN FOR AUDITOR.

Col. Woodson May, of Somerset, Democratic State Central Committee man from the Eleventh congressional district, who was in Louisville the other day attending the meeting of the State Central and Executive Committees, said that while he was not ready to make a formal announcement for State Auditor, he was seriously considering making the race, and was receiving much encouragement from various sections of the State. Colonel May has been a recognized party leader in the Eleventh district for many years, and is also well known in other sections of the State. He is editor of the Somerset Journal, one of the papers in the State, and is also a member of the Executive Committee of the Kentucky Press Association. His entry into a State race would add considerable zest to the contest. Colonel May is a native of Perryville, Boyle county.—Louisville Times.

THE FARMER'S

OPPORTUNITY

(W. P. Walton.)

The foreigners' extremity is the American farmers' opportunity. Agriculture is practically suspended in most of Europe on account of the farmers being enlisted in the fighting armies. They have to be fed, and it falls upon the farmers of this country to furnish the supplies. Most everything that the farms produce will be in great demand, and in behooves the producers to make every acre possible contribute the maximum. Wheat and corn especially will be in great demand, and as the former crop is soon to be sown he is wise who will sow the largest acreage he can. Intelligent farming has improved the yield and the quality of crops, while decreasing the farmer labor and toil in producing them. With increased acreage and improved methods there is hardly a limit to the possibilities for the farmer, and with the market that the European armies will supply, his opportunity is such that rarely comes in a life time.

Now is emphatically the time for the farmers who are in debt to lift the mortgages on their holdings. Wheat has jumped up more than 40 cents since the beginning of the war less than two months ago and the price continues to soar. It may not go to \$1.50 a bushel, but there is a prospect that it will. Un fortunately increased receipts are usually followed by increased expenditure the feeling of come easy go easy, generally prevailing. If, however, economy without parsimony is observed there is no reason why the American farmer may not soon be rolling in wealth and feeling a little above the less fortunate people who have to come across with the increased price of all farm products.

The Climax would impress upon the farmers to increase their acreage for crops, work them intelligently and be in no haste to market them, and our word for it, they will have money to lend and not a borrower be.

There is little prospect for peace, but if it were to come soon, the demand for foodstuff would continue for some years. Be wise and take advantage of an unusual opportunity now knocking at the door.—Climax.

Train or Wife?

"What's your hurry, old man? It's early yet; the night is young," said one at the smoker.

"I know," said the suburbanite, "but my wife is sitting up for me, and if I miss the last train I shall catch it."—Ladies' Home Journal.
